

AGENCY NAME:	South Carolina Administrative Law Court		
AGENCY CODE:	CO5	SECTION:	58

Fiscal Year 2017-18 Accountability Report

SUBMISSION FORM

AGENCY MISSION

The Court's mission is to provide a neutral forum for fair, prompt and objective hearings for any person(s) affected by an action or proposed action of certain State agencies or departments. The purpose of an administrative court such as the ALC, is to separate the adjudicatory proceedings from the investigative and policy-making functions of the agency. Prior to the creation of the Court, citizens who had a dispute with a state agency and wanted to challenge any action related to the dispute had to appear before hearing officers employed or contracted by that particular agency. The creation of this Court provided a forum separate from the agency whose decision was in dispute. The Court places a very high value on its ability to be fair and neutral to all of the litigants that appear before the Court and on continuing efforts to improve its results.

The Office of Motor Vehicle Hearings (OMVH) was created in 2005 as an office within the ALC and its mission is to provide a neutral forum for fair, prompt, and objective hearings for persons affected by certain actions or proposed actions of the SC Department of Motor Vehicles, ensuring due process and respecting the dignity of all.

AGENCY VISION

The Court's vision, including the OMVH, is to provide a technologically advanced court, easily accessible by all customers and stakeholders, to ensure the fair, prompt and objective resolution of all cases.

Please select yes or no if the agency has any major or minor (internal or external) recommendations that would allow the agency to operate more effectively and efficiently.

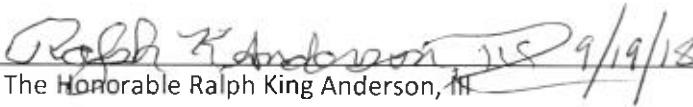

RESTRUCTURING RECOMMENDATIONS:	Yes	No

AGENCY'S DISCUSSION AND ANALYSIS

The Administrative Law Court (ALC) is in the Executive Branch and since its inception has evolved from an agency with 6 Administrative Law Judges (ALJ) and staff to an agency and court of record with an additional division, the Office of Motor Vehicle Hearings (OMVH), housing five (5) hearings officers and staff. Although the Court's jurisdiction has increased at a steady rate since its inception, the number of cases filed has decreased slightly. The Court now hears cases involving all state agencies except those arising under the Consolidated Procurement Code, the Public Service Commission and the Workers' Compensation Commission. (See Age of Disposed Cases below for specific case types filed with the Court).

The Court was created to provide a neutral forum for fair, prompt and objective hearings related to our jurisdiction. Though the ALC provides an excellent forum for the review of administrative law matters, there is always room for improvement, especially related to the time frames for disposing its cases (See Graph Charts regarding percentage of disposed cases). In analyzing the statistics for this year's disposals, there were a small number of cases that were disposed of well beyond the targeted time-frame. A closer review shows why it is often important to note that delays in cases may be beyond the control of the Court, in particular when motions for continuances, or to hold matters in abeyance pending the outcome of another court case are filed. For example, a county tax matter was filed and assigned in 2007 but was not disposed of until 2017. The party requesting the hearing asked for the matter to be held in abeyance pending the outcome of a quiet title action involving his property that was pending in circuit court and ultimately appealed to the Court of Appeals. When the case was reassigned to a new judge (due to the retirement of the previously assigned judge) the matter was dismissed with leave for the parties to refile if necessary after the Court of Appeals decision. Similarly, a 2009 case was held in abeyance pending outcome in another court and the matter was reassigned due to retirement and it was ultimately dismissed. In all, there were five cases that were at least three to eight years old and six cases that were two to three years old. The Court's overall disposition time-frames are trending at comparable rates over the past few years, even considering these anomalies.

The Chief Judge is statutorily responsible for the assignment of cases filed with the Court to an ALJ and is the Director of the OMVH where the cases are automatically assigned to a hearing officer based on specific geographic regions. The Chief Judge is also responsible for the administration of the Court and OMVH, including budgetary matters and supervision of the support staff. The other ALJs are individually responsible for efficiently disposing of cases assigned to them and for the supervision of his or her administrative assistant/law clerk. Although the Chief Judge is the administrator of the Court, each ALJ has complete autonomy over the cases he or she is assigned to adjudicate. Each ALJ and his or her law clerk are responsible for ensuring the fair and prompt disposition of the cases assigned to their office. Although there are internal workflows and timeframes for disposing of cases, there is no required uniformity among the judges' offices nor are there requirements that mandate compliance with the timeframes or workflows. The Court's current structure, with six autonomous judges' offices, does not lend itself to centralized oversight of case disposition processes. Legislative changes would be necessary if the General Assembly determined that such centralization or oversight of case dispositions was necessary. If the Court is unable to accomplish its goals and objectives, the greatest risk of a negative impact on the public would be for due process to be delayed or denied. If a case becomes moot due to lack of a timely decision, this could potentially have a negative impact on the parties involved. Citizens should be able to rely on a court system that is fair and prompt. Further, a court that is fully funded without reliance on fees would also mitigate these issues rising to the level of immediate concern for all stakeholders.

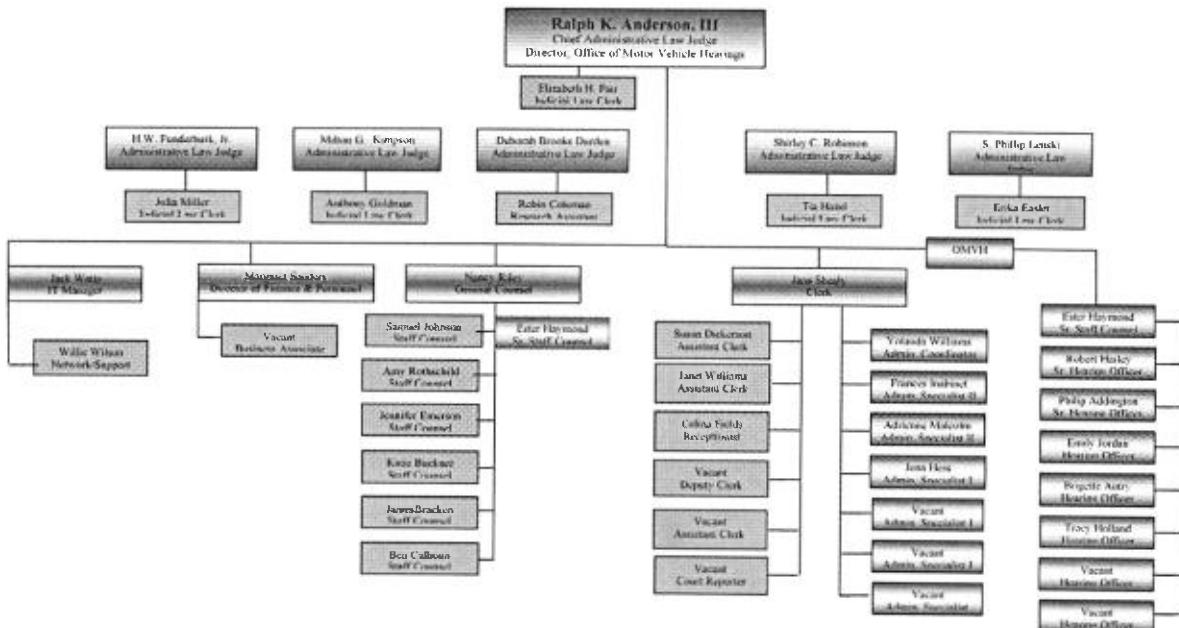

A top priority of the Court (including OMVH) is protecting our information and IT assets against increasing cyber threats and vulnerabilities. We depend heavily on our network and information systems for essential operations and data security and go beyond the minimum necessary steps to protect them. Recently the Court initiated a modernization of our data systems, networks, courtrooms and information platforms. This was imperative to protect business-critical applications and data. After strategic planning the Court began constructing a modernized and secure IT infrastructure that enhanced the agency's voice, network, data, and video capabilities, providing secure platforms for internal and external communications.

The Court will continue to develop and enhance a secure electronic filing system that is safe for all users, internal and external. Consolidating records while reducing the paper process will allow litigants faster access to the Court's information and provide electronic access to the public. In addition, the system and reduction of paper filings will increase the court's efficiency in processing and disposing of cases.

Much effort is being put into the cyber security education of all agency employees. Weekly safety briefs are a standard through email and on the Court's intranet site which is always accessible for users. The ALC's personnel stay informed by industry leaders to leverage best practices. We recognize that the first line of defense in maintaining the security and integrity of our IT assets and networks starts with informed IT personnel.

The Court will continue its efforts to meet its strategic goal to develop technology improvements and increase the Court's efficiency.
